

2022 DELAWARE NATION

ELDER LAWN MOWING SERVICE

Delaware Nation is offering lawn mowing services to enrolled Delaware Nation elders during the summer months from May to August. To qualify for this service, a Delaware Nation elder must be 60 years of age or older before or on April 20, 2022. **Only the primary residence** of the approved elder within a 40-mile radius of the Delaware Nation complex will receive this service. Addresses will be verified with the Enrollment office. This service will be offered on a first come first serve basis and applications are to be submitted before 4/29/2022. **All interested tribal elders will need to apply, even if services were provided in previous years.** Preference will be given to the elders who are unable to care for their lawn maintenance due to physical or mental limitations. After the first 15 elders have been approved, all other applications received will be placed on a waiting list. If an opening becomes available, the next person on the list will be notified. Upon approval, elders will be contacted and dates will be scheduled. Due to the high volume of mowing and limited time available, the Delaware Nation Facilities department asks that all yards be free of debris and any other objects that could damage any equipment. For questions or more information please contact Kandess at (405)933-2985.
